DAVID LLOYD LEISURE GROUP LIMITED

David Lloyd Leisure is Europe's leading premium health, fitness and racquets group. We currently have 127 clubs, 100 clubs of which are in the UK under our two brands David Lloyd Clubs and Harbour Clubs (of which there are three - Chelsea, Notting Hill and Kensington in London). In Europe, we have 27 clubs across the Netherlands, Belgium, Spain, Italy, France, Germany, Switzerland and Ireland.

Our clubs provide the perfect destinations to stay fit and healthy as a family. Facilities include state-of-the-art gyms, heated indoor and outdoor pools, top-class racquets facilities, well-equipped group exercise studios and luxurious spas. And if you need a place to meet with friends or enjoy a bite to eat, our clubs also feature large and inviting spaces to work, relax and socialise. We are the European market leader by revenue and operate in the premium sector offering a breadth of facilities unrivaled by any other operator in the industry.

The Group is owned by London-based private equity firm TDR Capital who have heavily invested in the business since its acquisition in 2013. In the last six years we've opened six new-build clubs in Glasgow, Colchester, Newbury and Bristol in the UK, plus Antwerp in Belgium and Aravaca, Madrid. In 2017 we acquired an additional 16 clubs in the UK and one in Italy, all of which have been re-branded as David Lloyd Clubs and have benefited from a total investment of £30.3 million to bring them into line with our existing portfolio.

We're passionate about making our clubs a comfortable and welcoming place to come together with friends, family and fellow members to maintain physical and mental health and wellness.

Modern lives are now busier than ever and finding meaningful time for those we care about the most can be difficult. Even when we do, we are still competing for full attention with the likes of social media and easy access to film and TV. At David Lloyd Clubs, we believe that we can provide the perfect place for 'We Time' - precious, quality time spent together with friends and family in a positive, active environment.

Our clubs are also a place to relax and socialise and we encourage the sense of community and belonging that being part of a club can generate. Whether that's with some quiet time in our serene spa facilities, getting to know new people by regularly attending a group

exercise class, chatting to fellow members in the spa, or using our Clubrooms to meet as a group for coffee, at David Lloyd Clubs, we're much more than just a gym.

In 2018 we acquired City Green Health and Sporting Club near Geneva, and Health City Bad Homburg near Frankfurt. Both clubs were rebranded as David Lloyd Clubs following a combined £14 million investment.

In 2020 we acquired the Meridian Spa Group which operates eight clubs in Germany, and we've added to our offering in Geneva with the purchase of County Club Geneva in Switzerland. 2021 has seen the business commit to new build clubs in Bicester, Oxfordshire and Shawfair, Edinburgh. Our goal is to have 150 clubs across the UK and Europe by 2026.

Across all clubs, we have over 911,000sqm of facilities with more than 180 indoor and outdoor swimming pools and run over 13,000 exercise classes every week. Our racquets facilities are unrivalled - we have more than 1,000 tennis courts (including 554 indoor), 234 badminton courts, 185 squash courts and 29 padel tennis courts.

Our membership base comprises the more affluent demographic groups and our clubs are very much family-focused. To our members, we're far more than just a gym or a tennis club. Around 22% of our members are children under 16, who join our clubs with their families to enjoy our industry-leading family sports and leisure facilities.

We teach 25,500 kids to swim and 16,200 to play tennis each year working with the Lawn Tennis Association to deliver market-leading coaching from grass-roots upwards. We also offer children's swimming pools, soft indoor play frames, after school and holiday activity clubs, creches and children's menus in our clubrooms.

At the heart of our clubs are our state-of-the-art gyms, complete with hi-tech fitness equipment, and our modern, airy studios offer the latest in group exercise. But we provide more than just market-leading fitness facilities; we also have health and beauty spas, adults-only and business lounges with free Wi-Fi and specialist sports shops.

This breadth of product is highly valued to our members - every month 24% play tennis and 53% use the spa. They also dwell in our clubs longer than average with 47% buying food and drink every month.

For the past four years we've been voted into the Sunday Times Top 25 Best Companies to Work For by our highly engaged 8600 team members, who are central to delivering excellent member service and the unique 'clubby' atmosphere that drives our members to visit more and stay with us longer. Our unique position in the industry enables us to innovate and partner with best-in-class providers to ensure we remain at the fore-front of health & fitness.

We successfully operate clubs in Belgium, Spain, Netherlands, Italy, France, Germany, Switzerland and Ireland, and intend to extend our estate into other key European gateway cities. We took a significant step to growing in these markets with the acquisition of eight Meridian Spa clubs in Germany and Geneva Country Club in 2020 & 2021, along with the acquisition of 3 Accura clubs in Spain. 2022 saw the addition of a second Italian club with the purchase of Club Z2 in Modena.

Additionally we will consider institutional leases for standalone clubs or space as part of a wider mixed use development such as shopping malls. In line with our recent growth we are looking to acquire existing businesses than can be transformed into a David Lloyd Club.

How is DLL going to grow to 150 clubs?

Our analysis has identified 50 towns and cities in the UK that have a demographic profile that compares to the existing membership base where there is an under provision of premium Health & Racquets facilities. This will enable us to search in very targeted locations for suitable development sites.

In Europe our starting point has been to focus on finding sites in countries we already have a presence in, whilst at the same time targeting major European cities.

In both the UK and Europe our sophisticated analysis and consumer data helps us to identify where the demographic sweet spot is in any given city. We are also on the look-out to acquire existing businesses to bring into the David Lloyd Clubs brand.

As well as seeking to enter new markets we will also explore opportunities to cluster new clubs in towns and cities where we already have a presence, perform well and benefit from strong brand awareness.

Our aim is to open four new clubs per year, either through development or acquisition of existing businesses, and are excited to work with entities from across the property industry to deliver suitable opportunities.
